SUMMARY

Aspiring Software Developer with hands-on experience building full-stack applications using Python, Django, and Oracle SQL. Eager to apply my skills in web development and data management to contribute to innovative projects.

PROJECT

College Management System

[college-management-system-bau8.onrender.com](#)

- Developed a full-stack College Management System using Django and Oracle SQL, featuring three distinct user dashboards (Admin, Faculty, Student) to manage course registration, attendance, and grades.

Online Bookstore Web App

[bookstore-aoer.onrender.com](#)

- Built a dynamic web application that allows users to browse and view detailed information about books.
- Utilized Django & MVT (Model-View-Template) architecture to organize backend logic, templates, and routing efficiently.
- Implemented admin-side book management and styled the frontend for better user experience.

Filterable Image Gallery

[filterable-image-gallery-one.vercel.app](#)

- Created an interactive gallery allowing users to filter images based on predefined categories, enhancing UI/UX experience.

Internet Speed Test Application

[internet-speed-detector-281e.vercel.app](#)

- Developed a web-based tool to measure internet download and upload speeds, providing real-time results.

SKILLS

Languages: Python, SQL, HTML, CSS, JavaScript

Frameworks & Libraries: Django, Flask

Databases: Oracle SQL

Tools: Git, GitHub

EDUCATION

B.Tech - Electrical & Electronics Engineering

Vignana Bharathi Institute of Technology, Ghatkesar (JNTU Hyderabad) • 2023 • 65.93%

Diploma - Electrical & Electronics Engineering

Govt. Polytechnic College, Yadagirigutta (SBTET Telangana) • 2020 • 68.45%

SSC

Vidya Jyothi High School, Raigir (BSE Telangana) • 2017 • 7.5

CERTIFICATIONS

Industrial Training

- Certified by Suryatech Solutions, ECIL.

Robotic Process Automation (RPA)

- Virtual Internship by Blueprism University.

AI-ML Virtual Internship - AWS Academy

- Cybersecurity Virtual Internship - Palo Alto Networks (Cybersecurity Academy).
